## PROJECTS

More projects at [www.sarahfeldmann.com](http://www.sarahfeldmann.com)

### India Rails Case Study

India Exploration Seminar | July 2018 - Aug 2018

Traveled to India and studied data about the India Railways regarding safety. Built and populated a SQL database with data about maintenance of the rails.

### AMPR

Informatics Capstone | Jan 2018 - June 2018

Designed and built a multi-platform dating application that matches users based on interest in types of dates and availability. The interactive web app was built with React.js and the iPhone app with React Native. Features include engaging profiles, smart swiping based on preferences, and a date generator integrated with instant messaging.

### YumMe

Cooperative Software Design (INFO 461) | March 2017 - June 2017

Designed and built a responsive, interactive web app using React.js, Javascript, HTML and CSS that utilizes the Instagram and Yelp APIs to allow users to choose a restaurant in a given location based on photos.
